

30-Day Instagram Content Calendar

Brand: The Quiet Cup | Prepared by Sadhanala Nischay Prasad

1. Task overview

The task was to create a 30-day social media content calendar for a brand, with the objective of learning content planning and social media consistency. The deliverables are a 30-day calendar, content topics, post formats, a publishing schedule and content objectives. Tools used: Google Sheets (calendar), Canva (post design) and Instagram/LinkedIn (publishing and sharing).

2. Brand brief

Item	Details
Brand	The Quiet Cup, a cozy, aesthetic café
Audience	A mix of college students and remote workers looking for a calm place to study and work
Platform	Instagram
Brand voice	Warm, calm and helpful; never pushy

3. Content objectives

Objective 1: Grow followers and brand awareness. Introduce the café and show why it is the right spot for studying and working.

Objective 2: Launch the Signature Cold Brew. Build curiosity, launch the drink and turn interest into café visits.

4. Publishing schedule

The brand posts 4 times a week, which gives 17 posts over 30 days (Day 1 is a Monday). A steady rhythm is easier to sustain than daily posting, and consistency matters more than volume.

Day	Time	Reason
Monday	7:30 PM	Audience plans the week and looks for a study spot
Wednesday	7:30 PM	Midweek evening scroll
Friday	6:00 PM	Weekend plans
Saturday	11:00 AM	Relaxed morning, café-going mood

5. Weekly themes

Week	Theme	Purpose
1 (Days 1–7)	Welcome to The Quiet Cup	Introduce the space, vibe and people
2 (Days 8–14)	Your study & work spot	Wi-Fi, quiet corners, focus tips: why the café is useful
3 (Days 15–21)	Something new is brewing	Teaser, brewing process, then the cold brew launch
4 (Days 22–30)	Sip, share, stay	Offers, photo contest, reposts and month recap

6. Content mix

Following the guideline to mix content types and avoid making every post promotional, the 17 posts are split as below. Promotional posts are about 24% of the feed and sit mostly in Weeks 3–4, after the audience already knows the café.

Content type	Posts	Share	Examples
Educational	5	29%	Study tips, Pomodoro, Coffee 101, how cold brew is made
Engagement	4	24%	Corner poll, playlist prompt, guessing teaser, photo contest
Informational	4	24%	Café tour, meet the barista, work-from-café guide, reposts
Promotional	4	24%	Cold brew launch, weekend offer, student combo, recap

7. Post formats

Reels are used for reach (café tour, launch, recap), carousels for saves and shares (tips, guides), single images for offers and prompts, and Stories for polls, Q&A and countdowns.

8. Full content calendar

Day	When	Type	Topic	Format	Caption idea	Hashtags / CTA	Goal
1	Mon 7:30 PM	Informational	First look inside The Quiet Cup	Reel (slow pan of the space, soft music)	Find your quiet. Now open.	#TheQuietCup #CafeVibes #CozyCafe CTA: Follow for more	Awareness

29	Mon 7:30 PM	Promotional	Month recap + cold brew now on the permanent menu	Reel (month highlights)	One month, lots of quiet moments. Cold brew is here to stay	#TheQuietCup #SignatureColdBrew CTA: Follow & visit	Promotion

9. Engagement strategy

Each week includes at least one post that asks followers to act: comment their favourite corner, share a playlist, guess the new item, or post their own Quiet Cup moment. The Day 24 photo contest feeds the Day 27 repost carousel, so followers become part of the content.

10. Learnings

Planning themes week by week first made it much easier to choose daily topics. Tying every post to an objective stopped the calendar from becoming a list of random ideas. Keeping promotion low early and building toward a launch created a story across the month instead of a series of ads. Finally, a realistic frequency with fixed posting times is what makes consistency achievable.

11. Conclusion

The calendar delivers 17 planned Instagram posts across 30 days for The Quiet Cup, with clear topics, formats, captions, hashtags, a fixed publishing schedule and a balanced content mix serving two objectives: awareness and the Signature Cold Brew launch. The full calendar is in the accompanying Google Sheets file.
